KPDA-KGBS COLLABORATION

KPDA actively promotes sustainable development through on behalf of its membership through referrals, partnerships, seminars, training programs and marketing. KPDA also works to promote Kenya as an attractive local for development activity both by domestic and foreign investors.

The Kenya Green Building Society is at the heart of promoting the vision of green building in all professionals associated with the KPDA. It is an independent membership based society formed to advocate for green building, rate the built environment & train the industry on green buildings.

Kenya Green Building Society is registered with the World Green Building Council and is one of the members alongside South Africa, Australia, UK & USA. KGBS provides the tools, training, knowledge, connections and networks to promote green building practices across the country and build a national movement that will change the way the world is built.

The Memorandum of Understanding for collaboration arrangements between the KPDA and the KGBS has been finalized. Both the KPDA and KGBS officials have agreed and signed the MOU.
