PART II- Deduction in respect of Capital Expenditure on Machinery			

Wear and Tear Deductions	7	(1)	Subject to this Part, where, during a year of income, machinery owned by a person is used by him for the purposes of his business, there shall be made in computing his gains or profits for that year of income a deduction (in this Part referred to as a "wear and tear deduction").
		(2)	The amount of the wear and tear deduction for a year of income shall be the appropriate percentage of the written down value at the end of that year, before making the deduction, of the machinery classified as follows –
		(a)	tractors, combine harvesters, heavy earth-moving equipment and such other heavy self-propelling machines of a similar nature as in his discretion the Commissioner, having regard to the likely usage and depreciation in any particular case, may agree;

Ascertainment of written down value	8	(1)	The written down value of each class of machinery referred to in paragraph 7(2) or 7(3) shall be calculated separately as at any time and shall be the amount still unallowed of capital expenditure on machinery of the class as construed in paragraph 9 of the Second Schedule to the Management Act, and as specified in paragraph 7 with the addition of the costs of capital expenditure on machinery of that class purchased and the deduction of the amount realized on the sale of machinery of that class sold in the year of income 1974, or a succeeding year of income, less deductions made under this Part; and where the amount realized for machinery of a class sold in a year of income exceeds that which, but for the deduction of that amount would be the written down value of machinery of that class at the end of that year of income, the excess shall not be deducted but shall be treated as a trading receipt or, conversely, as a trading loss:
			Provided that -
		(i)	the cost of capital expenditure of any class of machinery in respect of which a deduction is allowable in accordance with paragraph 24, 24A or 24B shall be deemed to be that cost reduced by the amount of those deductions;
		(ii)	where in any year of income an amount has, in accordance with paragraph 24A (3), been treated as a trading receipt, so much thereof as is referable to capital expenditure incurred on machinery of that class shall be deemed to be capital expenditure incurred on the purchase of machinery in that class in the year of income next succeeding that year of income.
		(2)	Subject to this Part, where machinery is brought into use for the purposes of a trade without being purchased or ceases permanently to be so used without being sold, it shall be deemed to have been purchased or sold as the case may be and the cost or amount realized shall be deemed to be the price which it would have fetched if sold in the open market.

Application to lessors	9	Where machinery is let upon terms that the burden of the wear and tear thereof falls directly upon the lessor, this Part shall apply in relation to him as if the machinery were, during the period of the letting, in use for the purposes of a business carried on by him.	
Expenditure on buildings in connection with installation of the machinery	10	Where a person carrying on a business incurs capital expenditure on alterations to an existing building incidental to the installation of machinery for the purposes of the business, this Schedule shall have effect as if that expenditure were capital expenditure on the provision of that machinery and as if the works representing that expenditure formed part of that machinery.	
Balancing deductions and balancing charges	11	(1)	Where wear and tear deductions or investment deductions have been made in computing the gains or profits of a person under paragraph 7, 24, 24A or 24B and that person ceases to carry on the business for the purposes of which the machinery was used and the machinery ceases to be owned by him, there shall be made in computing his gains or profits for the year of income in which the cessation occurs, a deduction or charge (in this Part referred to as a "balancing deduction" or a "balancing charge"); but -
			(a) for the purposes of this paragraph a partnership shall be deemed not to have ceased to carry on a business unless all the partners who carried it on cease to carry it on; and
			(b) where the machinery is sold by the liquidator of a company which is in the course of being wound up, the balancing deduction or balancing charge shall be made in computing the gains or profits of the company for the year of income in which the winding-up commenced; and
			(c) where, in the case of a balancing deduction, the total income for a year of income before taking account of the deduction is less than the amount of the deduction, the excess may be carried back and allowed in calculating the total income of the next preceding year of income, and so on, for as long as is necessary for the deduction to be absorbed by the total income of preceding years, not exceeding in all six in number.
		(2)	Subject to this Part, where on the cessation of a trade a balancing deduction or a balancing charge is to be made under this paragraph and -
			(a) no sale moneys are received by the person owning the machinery, or the written down value at the time of the cessation exceeds those moneys, the balancing deduction shall be the written down value at the time of cessation, or the excess thereof over those moneys, as the case may be;
			(b) the sale moneys exceed the written down value, if any, at the time of cessation, the balancing charge shall be the amount of the excess or, where the written down value is nil, the amount of those money, as the case may be.

Effect in certain successions, transfers, etc.	12.	Where a person succeeds to a business which until that time was carried on by another person, and machinery which, immediately before the succession was in use for the purposes of the business without being sold is, immediately after the succession, in use for the purposes of the business, that machinery shall, for the purposes of this Schedule, be treated as if it had been sold at the date of the succession to the person or persons carrying on the business immediately thereafter and as if the net proceeds of the sale had been the written down value of the machinery.	
Special provisions as to certain rules	13	(1)	This paragraph shall have effect in relation to sales of machinery where either -
			(a) the buyer is a body of persons over whom the seller has control, or the seller is a body of persons over whom the buyer has control, or both the seller and the buyer are bodies of persons and some other person has control over both of them; or
			(b) it appears with respect to the sale or with respect to transactions of which the sale is one, that the sole or main benefit which, apart from this paragraph, might have been expected to accrue to the parties or any of them was the obtaining of a deduction under this Schedule.
		(2)	Where the machinery is sold at a price other than that which it would have fetched if sold in the open market, then, subject to this paragraph, the like consequences shall ensue for the purposes of this Schedule to all persons concerned as would have ensued if the machinery had been sold for the price which it would have fetched if sold in the open market.
		(3)	Where the sale is one to which subparagraph (1) (a) applies and subparagraph (1) (b) does not apply, and is a sale which would give rise to a balancing charge, and the parties to the sale by notice in writing to the Commissioner so elect, then subparagraph (2) shall not have effect but the same consequences shall ensue to the buyer and seller as would have ensued if the price for which the machinery was sold had been the written down value; but no election shall be made in any case where either the buyer or the seller is at the time of the sale a nonresident person.

Private Use	14.		Where machinery owned by a person is, during a year of income, used by him for the purposes of a business carried on by him and also used by him for other purposes, then in determining the amount of a wear and tear deduction or a balancing deduction, or balancing charge or an amount treated as a trading receipt or the written down value of that machinery for a year of income, regard shall be had to all the relevant circumstances of the case and in particular to the extent of the use for those other purposes and the Commissioner shall make such adjustments as he may determine to be just and reasonable.

		(2)	Where capital expenditure of a kind referred to in sub-paragraph (1) was incurred on or after 1st January, 1981, that subparagraph shall be read as though the expression "seventy-five thousand shillings" were substituted for "thirty thousand shillings" wherever the later expression occurs.
